Subject: **Follow-up: Upcoming Child CVV  
Changes, Effective June 2, 2014**

INFO ONLY	<u>  X  </u>
ACTION NEEDED	<u>  X  </u>
POLICY CHANGE	<u>      </u>
<u>      </u> Administration	
<u>  X  </u> Nutrition Staff	
<u>      </u> All Staff Affected	
<u>      </u> ISIS Change	

### Purpose

This is a follow-up PWPC letter to provide you with additional information regarding the upcoming changes to the child's Cash Value Voucher (CVV) that will start printing on food instruments on June 2, 2014.

### Background

In the Revisions in the WIC Food Packages, Final Rule, USDA increased the value of the child's Fruits and Vegetables CVV from \$6 to \$8. This change will be implemented June 2, 2014. Additionally, the Job Aid Basic Food Package Description will be updated to reflect this change and posted by June 2, 2014.

Participants who have been double- or triple-issued and have child CVVs with an effective date of June 2, 2014 or later which have not yet been redeemed may bring these CVVs back to the clinic to be voided and reissued so the participant may receive the full \$8 benefit anytime on or after June 2. ISIS will not be able to issue the \$8 voucher until June 2.

An ISIS Change Cycle is planned for May 31, 2014, which will include increasing child CVVs to \$8.

There will be a file fix to delete any unissued Child prescriptions from the June 2014 prescription month forward. The IT packages will be included in the file fix. See below for an example of the WIC FAMILY PROFILE screen with the red P.

The food packages that will be deleted in the file fix are as follows:

IT4W, IT4L, IT4S, IT4C, IT4P, IT4G, IT4A, CT4W, CT4X, CT4L, CT4S, CT4C, CT4P, CT4G, CT4A, CF4C, CF4P, CF4G, CF4A, CP4, CP4X, CP4L, CP4S, CT4H and CP4H.

**Note:** The red P on the WIC Family Profile **only** displays if the current month prescription has not been issued. Please remember that when a Food Prescription is deleted, ISIS reverts back to the default package for that individual's category. For example, if a child had a therapeutic food package of CF4A, after the file fix when local agencies access the record through Change, it would default back to CP4.

### **Action**

Share this information with staff so that they will be prepared to inform participants of the change and that they may exchange eligible child CVVs for the \$8 CVV. Please remind staff of the red P which will appear with the file fix which will occur with this change cycle and how to address this warning.

### **Questions**

If you have any questions or need additional information, contact your regional staff at (916) 928-8500.

Sincerely,
